

If you would let some other fm station take over my listern supported christain music station translators, it would take away the positive truth and gods musicout of my local city and county.

I believe that it is in the best interest for you to let my community have this style of music to help raise kids and help law enforcementthrough the music help thoses who are ready to change there lives.

3. klove does so much for our comunnity it would take away all hope if it was taken from us so please reconsider your option to allow other lpfm to take away something i so strongly believe in and support.

thanks for your time Terry L Carpenter
